AUTHOR INDEX

Aasted, B. (Frederiksberg, Denmark)
Mink infected with Aleutian disease virus have an elevated level of CD8-positive T-lymphocytes 375
Bacon, L.D., *see* Lillehoj, H.S. et al.
Baldwin, C.L., *see* Morrison, W.I. et al.
Bernáth, S., *see* Tuboly, S. et al.
Black, S.J., *see* Olobo, J.O. and Black, S.J.
Blecha, F., *see* Orten, D.J. et al.
Boulard, C. (Monnaie, France)
Degradation of bovine C3 by serine proteases from parasites *Hypoderma lineatum* (Diptera, Oestridae) 387
Breitschwerdt, E.B., *see* De Buysscher, E.V. et al.
Brown, W.C., *see* Morrison, W.I. et al.
Brownlie, J. (Compton, Great Britain) and Splitter, G.A. (Madison, WI, U.S.A.)
Editorial 179
Bundesen, P., *see* Chin, J. et al.
Canning, P.C. and Roth, J.A. (Ames, IA, U.S.A.)
Effects of in vitro and in vivo administration of recombinant bovine interferon-γ on bovine neutrophil responses to *Brucella abortus* 119
Chapman, M.R., *see* Dennis, V.A. et al.
Chin, J., Daniels, J. and Bundesen, P. (Glenfield, N.S.W., Australia)
Bovine brucellosis: evaluation of field sera by a competitive and superimposable ELISA utilising a monoclonal antibody against *Brucella abortus* lipopolysaccharide 109
Cook, C.G. and Splitter, G.A. (Madison, WI, U.S.A.)
Comparison of bovine mononuclear cells with other species for cytolytic activity against virally-infected cells 239
Dabrowski, M., *see* Galkowska, H. et al.
Daniels, J., *see* Chin, J. et al.
De Buysscher, E.V., Breitschwerdt, E.B. and MacLachlan, N.J. (Raleigh, NC, U.S.A.)
Elevated serum IgA associated with immunoproliferative enteropathy of Basenji dogs: lack of evidence for alpha heavy-chain disease or enhanced intestinal IgA secretion 41
DeMartini, J.C., *see* Pearson, L.D. et al.
Dennis, V.A., Klei, T.R., Chapman, M.R. and Jeffers, G.W. (Baton Rouge, LA, U.S.A.)
In vivo activation of equine eosinophils and neutrophils by experimental *Strongylus vulgaris* infections 61
Doymaz, M.Z. (Knoxville, TN, U.S.A.), Sordillo, L.M. (Saskatoon, Sask., Canada), Oliver, S.P. (Knoxville, TN, U.S.A.) and Guidry, A.J. (Beltsville, MD, U.S.A.)
Effects of *Staphylococcus aureus* mastitis on bovine mammary gland plasma cell populations and immunoglobulin concentrations in milk 87
Felsburg, P.J., *see* Wunderli, P.S. and Felsburg, P.J.
Ferguson, F. *see* Pinto, A. and Ferguson, F.
Galkowska, H., Dabrowski, M. and Olszewski, W.L. (Warsaw, Poland)
Spontaneously active suppressive cells in canine peripheral blood 101
Gershwin, L.J., *see* Stewart, R.S. and Gershwin, L.J.; Thatcher, E.F. and Gershwin, L.J.
Glávits, R., *see* Tuboly, S. et al.
Glick, B., *see* Van der Zijpp, A.J. et al.
Goddeeris, B.M., *see* Morrison, W.I. et al.
Griffin, J.F.T. (Dunedin, New Zealand)
Stress and immunity: a unifying concept 263

Guidry, A.J., *see* Doymaz, M.Z. et al.
Hargis, A.M., Winkelstein, J.A., Moore, M.P., Weidner, J.P. and Prieur, D.J. (Pullman, WA, U.S.A.)
Complement levels in dogs with familial canine dermatomyositis 95
Harp, J.A., Runnels, P.L. and Pesch, B.A. (Ames, IA, U.S.A.)
Lymphocyte recirculation in cattle: patterns of localization by mammary and mesenteric lymph node lymphocytes 31
Jeffers, G.W., *see* Dennis, V.A. et al.
Jeffers, T.K., *see* Lillehoj, H.S. et al.
Kehrli, M.E., Jr., Nonnecke, B.J., Wood, R.L. and Roth, J.A. (Ames, IA, U.S.A.)
In vivo effects of a thymosin α_1-containing colostral whey product on neutrophils and lymphocytes from lactating cows without and with experimentally induced *Staphylococcus aureus* mastitis 149
Klei, T.R., *see* Dennis, V.A. et al.
Klieforth, R., *see* Redelman, D. et al., pp. 345, 363
Krakowka, S. (Columbus, OH, U.S.A.)
Book review of *Virus Infections of Carnivores*, by M.J. Appel (Editor) 173
Kreukniet, M.B., *see* Van der Zijpp, A.J. et al.
Lamont, S.J., *see* Lillehoj, H.S. et al.
Lillehoj, H.S., Ruff, M.D. (Beltsville, MD, U.S.A.), Bacon, L.D. (East Lansing, MI, U.S.A.), Lamont, S.J. (Ames, IA, U.S.A.) and Jeffers, T.K. (Greenfield, IN, U.S.A.)
Genetic control of immunity to *Eimeria tenella*. Interaction of MHC genes and non-MHC linked genes influences levels of disease susceptibility in chickens 135
MacLachlan, N.J., *see* De Buysscher, E.V. et al.
Medveczky, I., *see* Tuboly, S. et al.

Whetstone, C., *see* Redelman, D. et al., p.345
Winkelstein, J.A., *see* Hargis, A.M. et al.
Wood, R.L., *see* Kehrli, M.E., Jr. et al.
Wunderli, P.S. and Felsburg, P.J. (Urbana, IL, U.S.A.)
An improved method for the isolation of enriched canine peripheral blood mononuclear cell and peripheral blood lymphocyte preparations 335

SUBJECT INDEX

Aleutian disease virus
Infected mink have elevated level of CD8-positive T-lymphocytes 375
Anti-idiotype reagents
Characterization of anti-idiotype reagents to bovine herpesvirus-1 monoclonal antibody 1
Antibodies
Detection of IgE antibodies to bovine respiratory syncytial virus 313
Bacteria
Effects of *Staphylococcus aureus* mastitis on bovine mammary gland plasma cell populations and immunoglobulin concentrations in milk 87
Bovine brucellosis: evaluation of field sera by a competitive and superimposable ELISA utilising a monoclonal antibody against *Brucella abortus* lipopolysaccharide 109
Effects of in vitro and in vivo administration of recombinant bovine interferon-γ on bovine neutrophil responses to *Brucella abortus* 119
In vivo effects of a thymosin α_1-containing colostral whey product on neutrophils and lymphocytes from lactating cows without and with experimentally induced *Staphylococcus aureus* mastitis 149
Blood
Spontaneously active suppressive cells in canine peripheral blood 101
Improved method for isolation of enriched canine peripheral blood mononuclear cell and peripheral blood lymphocyte preparations 335
Brucella abortus
Bovine brucellosis: evaluation of field sera by a competitive and superimposable ELISA utilising a monoclonal antibody against *B. abortus* lipopolysaccharide 109
Effects of in vitro and in vivo administration of recombinant bovine interferon-γ on bovine neutrophil responses to *B. abortus* 119
Carrageenan
Interference with the humoral immune response in diverse genetic lines of chickens. I. Effect of carrageenan 53
Cattle
Lymphocyte recirculation: patterns of localization by mammary and mesenteric lymph node lymphocytes 31
Effects of *Staphylococcus aureus* mastitis on mammary gland plasma cell populations and immunoglobulin concentrations in milk 87
Brucellosis: evaluation of field sera by a competitive and superimposable ELISA utilising a monoclonal antibody against *Brucella abortus* lipopolysaccharide 109
Effects of in vitro and in vivo administration of recombinant bovine interferon-γ on bovine neutrophil responses to *Brucella abortus* 119
In vivo effects of a thymosin α_1-containing colostral whey product on neutrophils and lymphocytes from lactating cows without and with experimentally induced *Staphylococcus aureus* mastitis 149
Selected phenotypic and cloning properties of a bovine lymphoblastoid cell line, BL20 165
Theileria parva in cattle: characterization of infected lymphocytes and the immune responses they provoke 213
Comparison of bovine mononuclear cells with other species for cytolytic activity against virally-infected cells 239
Colostral transfer of immunoglobulin E and dynamics of serum IgE in calves 325
Antigen-specific proliferative responses to vesicular stomatitis virus following immunization with inactive virus 363

Degradation of bovine C3 by serine proteases from parasites *Hypoderma lineatum* (Diptera, Oestridae) 387
Chicken
Interference with the humoral immune response in diverse genetic lines. I. Effect of carrageenan 53
Genetic control of immunity to *Eimeria tenella*. Interaction of MHC genes and non-MHC linked genes influences levels of disease susceptibility 135
Colostrum
Intestinal absorption of colostral lymphoid cells in newborn piglets 75
In vivo effects of a thymosin α_1-containing colostral whey product on neutrophils and lymphocytes from lactating cows without and with experimentally induced *Staphylococcus aureus* mastitis 149
Colostral transfer of bovine immunoglobulin E and dynamics of serum IgE in calves 325
Complement
Levels in dogs with familial canine dermatomyositis 95
Cytolytic activity
Comparison of bovine mononuclear cells with other species for cytolytic activity against virally-infected cells 239
Dermatomyositis
Complement levels in dogs with familial canine dermatomyositis 95
Diagnosis
Detection of IgE antibodies to bovine respiratory syncytial virus 313
Diarrhoea
Elevated serum IgA associated with immunoproliferative enteropathy of Basenji dogs: lack of evidence for alpha heavy-chain disease or enhanced intestinal IgA secretion 41
Dog
Elevated serum IgA associated with immunoproliferative enteropathy of Basenji dogs: lack of evidence for alpha heavy-chain disease or enhanced intestinal IgA secretion 41
Complement levels in dogs with familial canine dermatomyositis 95
Spontaneously active suppressive cells in peripheral blood 101
Improved method for isolation of enriched peripheral blood mononuclear cell and peripheral blood lymphocyte preparations 335
Eimeria tenella
Genetic control of immunity to *E. tenella*. Interaction of MHC genes and non-MHC linked genes influences levels of disease susceptibility in chickens 135
Eosinophils
In vivo activation of equine eosinophils and neutrophils by experimental *Strongylus vulgaris* infections 61
Genetics
Genetic control of immunity to *Eimeria tenella*. Interaction of MHC genes and non-MHC linked genes influences levels of disease susceptibility in chickens 135
Helminths
In vivo activation of equine eosinophils and neutrophils by experimental *Strongylus vulgaris* infections 61
Herpesvirus
Characterization of anti-idiotype reagents to bovine herpesvirus-1 monoclonal antibody 1
Horse
In vivo activation of eosinophils and neutrophils by experimental *Strongylus vulgaris* infections 61
Humoral immunity
Interference with the humoral immune response in diverse genetic lines of chickens. I. Effect of carrageenan 53

Hypoderma lineatum
Degradation of bovine C3 by serine proteases from parasites *H. lineatum* (Diptera, Oestridae) 387
Immunoglobulins
Elevated serum IgA associated with immunoproliferative enteropathy of Basenji dogs: lack of evidence for alpha heavy-chain disease or enhanced intestinal IgA secretion 41
Effects of *Staphylococcus aureus* mastitis on bovine mammary gland plasma cell populations and immunoglobulin concentrations in milk 87
Detection of IgE antibodies to bovine respiratory syncytial virus 313
Colostral transfer of bovine immunoglobulin E and dynamics of serum IgE in calves 325
Immunology, general
Moving frontiers in veterinary immunology (book review) 174
Insects
Degradation of bovine C3 by serine proteases from parasites *Hypoderma lineatum* (Diptera, Oestridae) 387
Interferon
Effects of in vitro and in vivo administration of recombinant bovine interferon-γ on bovine neutrophil responses to *Brucella abortus* 119
Intestine
Lymphocyte recirculation in cattle: patterns of localization by mammary and mesenteric lymph node lymphocytes 31
Elevated serum IgA associated with immunoproliferative enteropathy of Basenji dogs: lack of evidence for alpha heavy-chain disease or enhance intestinal IgA secretion 41
Intestinal absorption of colostral lymphoid cells in newborn piglets 75
Lentivirus
Animal lentivirus vaccines: problems and prospects 183
Lymphoblastoid cell lines
Selected phenotypic and cloning properties of a bovine lymphoblastoid cell line, BL20 165
Lymphocytes
Lymphocyte recirculation in cattle: patterns of localization by mammary and mesenteric lymph node lymphocytes 31
In vivo effects of a thymosin α_1-containing colostral whey product on neutrophils and lymphocytes from lactating cows without and with experimentally induced *Staphylococcus aureus* mastitis 149
Theileria parva in cattle: characterization of infected lymphocytes and the immune responses they provoke 213
Improved method for isolation of enriched canine peripheral blood mononuclear cell and peripheral blood lymphocyte preparations 335
Mink infected with Aleutian disease virus have an elevated level of CD8-positive T-lymphocytes 375
Macrophages
Comparison of bovine mononuclear cells with other species for cytolytic activity against virally-infected cells 239
Mammary gland
Lymphocyte recirculation in cattle: patterns of localization by mammary and mesenteric lymph node lymphocytes 31
Effects of *Staphylococcus aureus* mastitis on bovine mammary gland plasma cell populations and immunoglobulin concentrations in milk 87
Mastitis
Effects of *Staphylococcus aureus* mastitis on bovine mammary gland plasma cell populations and immunoglobulin concentrations in milk 87

In vivo effects of a thymosin α_1-containing colostral whey product on neutrophils and lymphocytes from lactating cows without and with experimentally induced *Staphylococcus aureus* mastitis 149
Milk
Effects of *Staphylococcus aureus* mastitis on bovine mammary gland plasma cell populations and immunoglobulin concentrations in milk 87
Mink
Mink infected with Aleutian disease virus have an elevated level of CD8-positive T-lymphocytes 375
Monoclonal antibodies
Characterization of anti-idiotype reagents to bovine herpesvirus-1 monoclonal antibody 1
Bovine brucellosis: evaluation of field sera by a competitive and superimposable ELISA utilising a monoclonal antibody against *Brucella abortus* lipopolysaccharide 109
Monocytes
Comparison of bovine mononuclear cells with other species for cytolytic activity against virally-infected cells 239
Mononuclear cells
Improved method for isolation of enriched canine peripheral blood mononuclear cell and peripheral blood lymphocyte preparations 335
Antigen-specific proliferative responses to vesicular stomatitis virus following immunization of cattle with inactive virus 363
Natural killer cells
Characteristics of Yorkshire swine natural killer cells 15
Comparison of bovine mononuclear cells with other species for cytolytic activity against virally-infected cells 239
Neutrophils
In vivo activation of equine eosinophils and neutrophils by experimental *Strongylus vulgaris* infections 61
Effects of in vitro and in vivo administration of recombinant bovine interferon-γ on bovine neutrophil responses to *Brucella abortus* 119
In vivo effects of a thymosin α_1-containing colostral whey product on neutrophils and lymphocytes from lactating cows without and with experimentally induced *Staphylococcus aureus* mastitis 149
Pig
Characteristics of Yorkshire swine natural killer cells 15
Intestinal absorption of colostral lymphoid cells in newborn piglets 75
Experimental vesicular stomatitis virus infection: extent of infection and immunological response 345
Proteolytic activity
Degradation of bovine C3 by serine proteases from parasites *Hypoderma lineatum* (Diptera, Oestridae) 387
Protozoa
Genetic control of immunity to *Eimeria tenella*. Interaction of MHC genes and non-MHC linked genes influences levels of disease susceptibility in chickens 135
Theileria parva in cattle: characterization of infected lymphocytes and the immune responses they provoke 213
Respiratory syncytial virus
Detection of IgE antibodies to bovine respiratory syncytial virus 313
Staphylococcus aureus
Effects of *S. aureus* mastitis on bovine mammary gland plasma cell populations and immunoglobulin concentrations in milk 87

In vivo effects of a thymosin α_1-containing colostral whey product on neutrophils and lymphocytes from lactating cows without and with experimentally induced *S. aureus* mastitis 149
Stress
Stress and immunity: a unifying concept 263
Strongylus vulgaris
In vivo activation of equine eosinophils and neutrophils by experimental *S. vulgaris* infections 61
Suppressive cells
Spontaneously active suppressive cells in canine peripheral blood 101
Theileria parva
In cattle: characterization of infected lymphocytes and the immune responses they provoke 213
Vaccination
Animal lentivirus vaccines: problems and prospects 183
Antigen-specific proliferative responses to vesicular stomatitis virus following immunization of cattle with inactive virus 363
Vesicular stomatitis virus
Experimental infection of swine: extent of infection and immunological response 345
Antigen-specific proliferative responses following immunization of cattle with inactive virus 363
Viruses
Characterization of anti-idiotype reagents to bovine herpesvirus-1 monoclonal antibody 1
Virus infections of carnivores (book review) 173
Animal lentivirus vaccines: problems and prospects 183
Comparison of bovine mononuclear cells with other species for cytolytic activity against virally-infected cells 239
Detection of IgE antibodies to bovine respiratory syncytial virus 313
Experimental vesicular stomatitis virus infection of swine: extent of infection and immunological response 345
Antigen-specific proliferative responses to vesicular stomatitis virus following immunization of cattle with inactive virus 363
Mink infected with Aleutian disease virus have an elevated level of CD8-positive T-lymphocytes 375
